

# Dekelboum Science Center

West Palm Beach, Florida

**Role:** Programming, Museum Planner and Architect for New Building

**Description:** Designed as a response to the surrounding ecology of Southern Florida, the Dekelboum Science Center contains massing elements inspired by the wading birds of the “Sea of Grass.”

Located in West Palm Beach, the Science Center will be a new, three-floor facility containing 103,000 gross SF including 30,000 SF of science and aquarium exhibits, a large format theater, a planetarium, and an auditorium.
